APRESENTAÇÕES DOS PÔSTERES

Dia: Quarta-feira - **28/10/2026**

Horário: Das **18h30 às 19h30**

Local: Espaço Cultural Fernando Sabino

Informamos que os trabalhos listados abaixo foram programados para apresentação de pôsteres na data, no horário e no local informados acima.

Orientações para a apresentação dos pôsteres:

- O uso do *template* (modelo do banner) oficial do evento é **OBRIGATÓRIO** e está disponível no site do evento.
- Os pôsteres deverão ser afixados até 15 minutos antes do início da sessão de apresentação.
- O autor deverá permanecer junto ao pôster durante toda a sessão.
- Os pôsteres deverão ser retirados imediatamente após o término da sessão de apresentação. Aqueles que não forem retirados serão descartados pela organização do evento.

Título do Trabalho	Painel
Establishment and epithelial characterization of bovine mammary organoids derived from tissue and milk somatic cells	Painel de Bovinos
Ozonated Saline Solution as an Alternative Treatment for Puerperal Endometritis in Lactating Dairy Cows	Painel de Bovinos
Use of a reduced dose of prostaglandin F2α at the beginning of a fixed-time artificial insemination protocol in cyclic beef heifers	Painel de Bovinos
Bovine Umbilical Cord Perivascular Mesenchymal Stromal Cells-Derived Extracellular Vesicles Modulate Targeted Gene Expression in Bovine Endometrial Cells under Basal and Inflammatory Conditions	Painel de Bovinos
In Vitro Antibacterial Activity of Coffea arabica Hydrolate Against Bovine Endometrial Bacterial Isolates	Painel de bovinos

Bovine Umbilical Cord Perivascular Mesenchymal Stromal Cell-Derived Extracellular Vesicles Enhance Endometrial Cell Migration and Modulate Cell Viability In Vitro	Painel de Bovinos
Impact of Environmental Conditions on Testicular Development in Beef Cattle	Painel de Bovinos
Confocal Microscopy Reveals Endometrial Extracellular Vesicles Uptake and Limitations of PKH67 Labeling in Bovine Cells	Painel de Bovinos
Efficiency of a bovine SCNT cloning program and different types of gestational presentations.	Painel de Bovinos
Beyond the Protocol: What Drives Pregnancy Success in Fixed-Time Artificial Insemination — Insights from 1.37 million Field Records in Nellore Cattle	Painel de Bovinos
Plasma PAG-2 concentrations as an early biomarker of pregnancy establishment in lactating dairy cows following embryo transfer	Painel de Bovinos
Factors associated with pregnancy outcomes in commercial fixed-time embryo transfer programs	Painel de Bovinos
Factors associated with pregnancy outcomes in commercial fixed-time artificial insemination programs	Painel de Bovinos
Use of a reduced dose of gonadotropin-releasing hormone at the time of fixed-time artificial insemination in beef heifers	Painel de Bovinos
Effects of female sex-sorted semen on mitochondrial activity, oxidative stress, and development of bovine embryos	Painel de Bovinos
Probiotic supplementation modulates postpartum endometrial immune-cell dynamics in young Nellore females	Painel de Bovinos
Bovine Serum Albumin as an Alternative Collection-Medium Component to Fetal Bovine Serum for Extracellular Vesicle Production	Painel de Bovinos
Validation of mutation in a regulatory region related to ovum pick-up in Gir	Painel de Bovinos
Case report: urethral prolapse in dog associated with excessive masturbation	Painel de Cães e Gatos e Animais Silvestres
Postioplasty associated with preputial advancement after mast cell tumor resection in a dog	Painel de Cães e Gatos e Animais Silvestres

Preputial advancement and postioplasty for correction of penile exposure associated with priapism in a paraplegic dog	Painel de Cães e Gatos e Animais Silvestres
Forskolin and IBMX in the modulation of in vitro oocyte maturation in domestic cats – preliminary results	Painel de Cães e Gatos e Animais Silvestres
Effect of curcumin on the morphological and morphometric preservation of vitrified canine testes	Painel de Cães e Gatos e Animais Silvestres
Meiotic resumption kinetics during in vitro maturation (IVM) of domestic cat oocytes: influence of cAMP modulators used prior to IVM	Painel de Cães e Gatos e Animais Silvestres
Post-Thaw Quality of Domestic Cat Epididymal Sperm Cryopreserved with Trans-Anethole-Supplemented Extender: Preliminary Results	Painel de Cães e Gatos e Animais Silvestres
Implementation of a Method for Microplastic Identification in Chicken Ovaries (Gallus gallus)	Painel de Cães e Gatos e Animais Silvestres
Meconium-stained amniotic fluid and its influence on fetal-neonatal transition in dogs.	Painel de Cães e Gatos e Animais Silvestres
Evaluation of pulmonary morphofunctional maturation and its relationship with respiratory performance of canine neonates during fetal- neonatal transition.	Painel de Cães e Gatos e Animais Silvestres
In situ expression of steroidogenic enzymes in the uterus of bitches with pyometra.	Painel de Cães e Gatos e Animais Silvestres
Influence of commercial canine milk replacers on puppy digestive function during neonatal period in dogs	Painel de Cães e Gatos e Animais Silvestres
Clinical approach of a rare case of canine gestational amniotic and allantois hydrops	Painel de Cães e Gatos e Animais Silvestres
Electrocardiographic Parameters of Neonatal Mangalarga Marchador Foals Followed from Birth to 30 Days of Age	Painel de Equinos
Melatonin as an additive in an extender for refrigerated stallion sêmen	Painel de Equinos
Effect of vitrification-warming media on pregnancy rates following transfer of vitrified equine embryos	Painel de Equinos
Leukocyte profile and fibrinogen in Mangalarga Marchador foals assessed from birth to 30 days of age.	Painel de Equinos

Characterization of Extracellular Vesicles Derived from Equine Umbilical Cord Perivascular Mesenchymal Stromal Cells	Painel de Equinos
Embryo type and recipient mare age: effect on embryo transfer	Painel de Equinos
Association between semen deposition site, estrus duration, cervical mucus characteristics, and pregnancy in Saanen goats undergoing fixed-time artificial insemination	Painel de Pequenos Ruminantes
Ecotexture of the testicular parenchyma of sheep raised in different systems in eastern amazon	Painel de Pequenos Ruminantes
Characterization of scrotal and epididymal thermal windows of sheep raised in different environments in eastern amazonia	Painel de Pequenos Ruminantes
"Characterization of reproductive and blood metabolic indicators in pelibuey and black belly sheep in the ecuadorian amazon"	Painel de Pequenos Ruminantes
Commercial extenders for ram semen cryopreservation	Painel de Pequenos Ruminantes
Oral pentoxifylline modulates sperm motility dynamics in rams subjected to scrotal insulation	Painel de Pequenos Ruminantes
Commercial extenders for the cryopreservation of goat semen	Painel de Pequenos Ruminantes
Reproductive, ultrasonographic and pathological characterization of testicular degeneration in a post-puberty goat – case report	Painel de Pequenos Ruminantes
B-defensin transcriptome in cotyledons from santa inês ewes supplemented with guanidinoacetic acid during gestation	Painel de Pequenos Ruminantes
Routine Antimicrobial Use in Artificial Insemination Induces Endometrial Dysbiosis and Alters Embryonic Epigenetic Programming	Painel de Suínos
Plasma membrane lipid peroxidation in cryopreserved porcine spermatozoa supplemented with Bactris guineensis extract	Painel de Suínos
Evaluation of the effect of Bactris guineensis anthocyanins on the In Vitro maturation of porcine oocytes	Painel de Suínos
Molecular analysis of adipogenesis and myogenesis during intrauterine development in piau pig conceptuses	Painel de Suínos
Nuances of the different thermal body windows of pigs kept in a rearing system with stalls	Painel de Suínos
