APRESENTAÇÕES DOS PÔSTERES

Dia: Sexta-feira - **30/10/2026**

Horário: Das **18h30 às 19h30**

Local: Espaço Cultural Fernando Sabino

Informamos que os trabalhos listados abaixo foram programados para apresentação de pôsteres na data, no horário e no local informados acima.

Orientações para a apresentação dos pôsteres:

- O uso do *template* (modelo do banner) oficial do evento é **OBRIGATÓRIO** e está disponível no site do evento.
- Os pôsteres deverão ser afixados até 15 minutos antes do início da sessão de apresentação.
- O autor deverá permanecer junto ao pôster durante toda a sessão.
- Os pôsteres deverão ser retirados imediatamente após o término da sessão de apresentação. Aqueles que não forem retirados serão descartados pela organização do evento.

Título do trabalho	Painel
Viability profile of cumulus cells biopsied before and after maturation assessed by FlowSight® Imaging	Painel de Bovinos
Blockage of extracellular vesicles secretion during bovine oocyte maturation reduces cumulus expansion	Painel de Bovinos
Effects of prepartum rumen-protected B-complex vitamin supplementation on placental characteristics and reproductive responses in beef cows	Painel de Bovinos
Anogenital distance measurement as a population indicator in the Gir breed	Painel de Bovinos
Genotype-environment interaction for oocyte and embryo production in Gir cows	Painel de Bovinos
Potential of miRNA433 for pregnancy onset identification in Gir cattle	Painel de Bovinos

Interaction Between Production Level and Climate: How Heat Stress Limits the Reproductive Efficiency of Holstein Heifers and Cows	Painel de Bovinos
Spectrophotometric quantification of soluble proteins in cervicovaginal mucus as a predictive biomarker for pregnancy in dairy cows	Painel de Bovinos
Physicochemical profile of cervicovaginal mucus in dairy cows and its correlation with pregnancy	Painel de Bovinos
Comparison of data transformation methods for oocytes and embryos to achieve a normal distribution	Painel de Bovinos
Cavitary and compact corpora lutea show similar pregnancy per embryo transfer and progesterone concentrations on Day 28 in embryo recipients	Painel de Bovinos
Beyond bottom-up proteomics: top-down profiling unveils dynamic proteoform compartmentalization in bull epididymal fluid	Painel de Bovinos
Efficiency of different reproductive biotechnologies in positive pregnancy diagnosis in Gir cows	Painel de Bovinos
Effects of pedigree and genomic inbreeding on oocyte and embryo production in Gir cattle	Painel de Bovinos
Relationship of cryopreserved spermatozoa fertility with capacitation and the metabolome	Painel de Bovinos
Identification of biological processes related to oocyte and embryo in cattle	Painel de Bovinos
Paired profiling identifies shared miRNA signatures in bovine oocytes and follicular fluid extracellular vesicles	Painel de Bovinos
Sperm miRNA profile and its association with in vitro embryonic development in cattle	Painel de Bovinos
Efficiency of ovum pick-up, oocyte quality, and *in vitro* embryo production in romosinuano and costeño con cuernos creole cattle	Painel de Bovinos
Effect of donor age on ovarian response and in vitro embryo production in colombian creole cattle	Painel de Bovinos
Bone Alkaline Phosphatase as a Potential Predictor of Sexual Precocity: Preliminary Data	Painel de Bovinos

Predictors of Early Skeletal Maturation in Prepubertal Nelore Heifers	Painel de Bovinos
Weight-to-Height Ratio as a Biometric Indicator for Selection and Reproductive Performance in Pre-Pubertal Nelore Heifers	Painel de Bovinos
Influence of the dominant follicle and corpus luteum on follicular recovery, oocyte quality and in vitro embryo production in colombian creole cattle	Painel de Bovinos
A case report of patent foramen ovale and pulmonary valve stenosis in a canine neonate	Painel de Cães e Gatos e Animais Silvestres
Modeling birth weight as a function of the temperature-humidity index in New Zealand White rabbits	Painel de Cães e Gatos e Animais Silvestres
Anal atresia with recurrent anorectal stenosis in a male cat: a case report	Painel de Cães e Gatos e Animais Silvestres
Successful maternal-fetal management of a pregnant cat with a fracture: a case report	Painel de Cães e Gatos e Animais Silvestres
Feline mammary fibroepithelial hyperplasia during pregnancy: a case report	Painel de Cães e Gatos e Animais Silvestres
Progression of a reducible inguinal hysterocele to uterine incarceration associated with pyometra in a bitch: a case report	Painel de Cães e Gatos e Animais Silvestres
Nlr, plr, and sii as potential complementary biomarkers for determining the timing of elective cesarean section in bitches	Painel de Cães e Gatos e Animais Silvestres
Mammary osteossarcoma in a pregnant bitch: possible influence of pregnancy on tumor progression	Painel de Cães e Gatos e Animais Silvestres
Inguinal hysterocele with incarceration of both uterine horns: limitations of ultrasonography in surgical planning – a case report	Painel de Cães e Gatos e Animais Silvestres
Pathological multiple gestation associated with maternal metabolic alterations in bitches: a report of two cases	Painel de Cães e Gatos e Animais Silvestres
Systemic inflammatory indices in female cats with mammary neoplasia: evaluation of nlr, plr, and sii	Painel de Cães e Gatos e Animais Silvestres
Cryopreservation-associated changes in the sperm proteome and motility of Pêga donkeys	Painel de Equinos
Association of Sexual Behavior and Seminal Characteristics with Systemic and Seminal Redox Status in Stallions	Painel de Equinos

Preservation of Platelet-Rich Plasma with Glycerol for Subsequent Use in Equine Reproduction: From Cryopreservation to Field Application as an Alternative to Antimicrobials	Painel de Equinos
Protein electrophoresis in donkey foals as a tool for assessing passive immunity	Painel de Equinos
Hematological Profile of Healthy Donkey Foals from Birth to Seven Days of Age	Painel de Equinos
Dynamics of Metabolic Regulation and Progesterone in Postpartum Pêga Donkeys	Painel de Equinos
Effects of nicotinic acid supplementation on sperm motility and kinematics of post-thaw stallion semen	Painel de Equinos
Morphometric and Hemodynamic Assessment of Uterine Involution in Santa Inês Ewes Using B-Mode and Doppler Ultrasonography	Painel de Pequenos Ruminantes
Serum Biochemical Parameters as Selection Criteria for Santa Inês Embryo Donor Ewes	Painel de Pequenos Ruminantes
Association of cloprostenol, oxytocin, and butorphanol in semen collection from rams	Painel de Pequenos Ruminantes
Metabolic and Hormonal Adaptations to the Peripartum Period Are Influenced by Parity in Santa Inês Ewes	Painel de Pequenos Ruminantes
Substitution of natural by recombinant eCG (reCG) in estrus induction treatments in Saanen goats	Painel de Pequenos Ruminantes
L-proline in a soybean lecithin-based extender alters sperm kinematics in goats after cryopreservation	Painel de Pequenos Ruminantes
Reproductive responses of saanen bucks during the non-breeding season: role of previous artificial photoperiod exposure	Painel de Pequenos Ruminantes
Lambing Season Influences Metabolic Adaptations and Resumption of Ovarian Cyclicity in Santa Inês Ewes	Painel de Pequenos Ruminantes
Unilateral Traumatic Testicular Hematocele in a Dorper Ram: A Case Report	Painel de Pequenos Ruminantes
Effect of progesterone-based and Ovsynch protocols on the follicular dynamics of Saanen goats under tropical conditions	Painel de Pequenos Ruminantes
